# KAMAL ALI

**Actively seeking winter 2022 software internships (January to April)**

## EDUCATION

### Memorial University of Newfoundland, Canada

B. Eng. Computer Engineering | Class of 2023 | GPA 3.89/4

## CO-OP EXPERIENCE

### Junior Programmer Analyst Intern

InnovMarine | Remote | May 2021 - Aug 2021

- Developed, maintained, and documented a VBA application
- Optimized the application to run +20 times faster, resulting in significant savings in time and money
- Established a workflow to integrate source control with VBA

VBA | Python | C# | Documentation

### Hardware Support Intern

Nokia | Ottawa | Jan 2020 - Apr 2020

- Conducted comprehensive tests using oscilloscopes
- Developed a Perl script to automate searching
- Provided support to remote engineers during pandemic

Soldering | Schematics | Linux | Firmware

### Research and Design Intern

Memorial University | St. John's | Jun 2019 - Aug 2019

- Conducted heat analysis to provide recommendations
- Characterized a product's properties by designing, conducting, and documenting 20 experiments in 6 weeks

Calculus | Scientific Method | Design

## EXTRA-CURRICULARS

### Lead Organizer

Hack Frost NL | Oct 2020 - Present

- Founded the university's first large-scale hackathon. link
- Built a team, led the planning, and raised funds
- Planning for more events and the next hackathon

### Junior Designer

Paradigm Hyperloop | Oct 2018 - Oct 2020

- Participated in SpaceX Hyperloop Competition in LA
- Developed Python scripts to automate tasks (learned Python, GitHub, APIs, and Documentation)

### Student Advisor

Google Developers Student Club | Jul 2021- Present

- Assisting the first Google Developers Club on campus in launching successfully

## CONTACT

**Phone:** +1 709-770-7906

**Email:** kmali@mun.ca

**LinkedIn**

## SKILLS

- Languages: Proficient in C++, Java, Python, and VBA. Familiar with C# and Perl
- Clean coding and documentation skills
- Good understanding of web dev: HTML, CSS, JS
- Excellent verbal and written skills
- Strong presentation skills
- Proactive and self-directed
- Actively developing my leadership skills
- To-the-point feedback

## PROJECTS / HACKATHONS

- **U-Calendar** (Jan 2021 - Apr 2021): Desktop calendar for university students. Technologies used: Java, JavaFX, SQLite, CSS, Maven, UML, Git/GitHub. Link
- **MakeUofT 2020**: Basketball game with Ultrasound sensors and Arduino. Link
- **IEEE Xtreme Programming 2019**: final ranking 1300 out of 4000. Link
- **Entrepreneurial Externship 2019**: interned at a company to discover potential startup ideas, developed and pitched an idea in 4 weeks.

## AWARDS RECEIVED

- Memorial's Engineering Dean's List (x2)
- MUN International Undergraduate Scholarship
- Emera Excellence Scholarship
- ESANA Undergraduate Excellence Scholarship
- MUN International Entrance Scholarship

## ONLINE COURSES

- AWS Certified Developer Associate | Jul 2021 - Present | Udemy
- Intro to Quantum Computing | Sep 2020 - Dec 2020 | The Coding School
